

Chiussi 19-7

*Remarks*

Reconsideration of remaining claims 1, 3-9, 12-15, 21-24 and 26-30 is respectfully requested.

In further response to the Office action dated April 12, 2205 (application paper No. 4), applicants have gone forward to incorporate the subject matter of "allowable" claims 11 and 25 into base claims 1 and 21, respectively. Claims 11 and 25 have now been cancelled from this application. With this amendment, applicants believe that the remaining claims, as including the patentable subject matter of having the capacity of the input buffers exceed the capacity of the output buffers, are now in condition for allowance. An early and favorable response from the Examiner in that regard is respectfully requested.

If for some reason or other the Examiner does not agree that the case is ready to issue and that an interview or telephone conversation would further the prosecution, the Examiner is invited to contact applicants' attorney at the telephone number listed below.

Respectfully submitted,

Fabio Massimo Chiussi et al.
